PROFESSIONAL HEALTH WG (PH WG)

PH WG joined with the Patient Safety PS WG at the Zagreb 2016 meeting to work in collaboration in the preparations for the themes and plenary speakers for the Dublin Conference in March 2017. Delegates combined common interests of QI, PS and PH

The highlights of 2017 were:

- EQuiP 2017 Conference www.icgp/equip
- Dublin Declaration <http://equip.woncaeurope.org/news/equip-wonca-europe-2017-dublin-declaration>
- Doctors Burnout - PHWG presentation at Wonca Europe Prague 2017 thanks to Prof Zlata Ozvacic

For 2018 we look forward to

May 2018 www.WellMed.gr where Isabelle Andree Zlata and Sofia will prepare and deliver the first Primary Care Symposium at WellMed 3, a third global conference for Doctors Health & Wellbeing at Work, historically focussed on hospital doctors.

May 2018 launch of the WE Statement on Overdiagnosis, Andrée has worked with the WE WG on OD. She believes that addressing OD will benefit doctors health. Abstract for WS on Overdiagnosis has been accepted for Krakow - under Europrev. Europrev has a past statement on quaternary prevention.

November 2018 Work plan includes creation of a draft EQuiP Statement on Doctors health for submission to WE EB in preparation for EQuiP 2019 conference in Greece
