EQUIP WORKING GROUP ON MESO LEVEL

➤ Objectives for 2019-2022

- Results for Italy and UK, make a synthesis of all the countries.
- To discuss in the working group :

Refine the results with country experts ? Country delegates ?

Write a paper on the meso level development in 7 european countries / ... on the role of the meso level in QI.

Make a questionnaire to describe the meso level of primary care in a european country ?

Follow up the meso level development of PC in European countries ?

* We will start the working group with a brief reminder of the concept and some illustrations from Belgium and France.

LOCAL PROFESSIONAL HEALTH COMMUNITIES COMMUNAUTÉS PROFESSIONNELLES TERRITORIALES DE SANTÉ

CPTS (defined by law in 2016) = The place for organizing and coordinating ambulatory health professionals around a population in an area.

Areas with 20 000 to 100 000 inhabitants.

The initiative to create a CPTS is left to the health professionals of the area, at least initially.

Each CPTS must have a health project, based on a health needs analysis.

CPTS are funded by the National Health Insurance since 2019 (up to 400 000 € / year)

MISSIONS : TO DEVELOP...

Preventive actions

Access to PC :

- personal GP
- organized out of hours care

Coordination of multiprofessional care pathways

Quality improvement and appropriateness of care

To bring support to health care professionals in the area
